

Heroes and Villains

Wicked evil villains are your foes
They can destroy the world like an army gun,
They will demolish everything in one blink
and ruin you and your friend's fun.

Saving lives, undoing crimes,
Helping people through bad times,
Heroes save even in bad weather,
So kind hearted, they bring people together.

Villains are cruel
Villains will dare,
Villains are nasty
And don't really care.

Heroes have kindness
And save the city,
They use their manners
And wipe out horror and pity.

Throughout all evil they happen to win
And spread happiness to all with just a grin,
When they save the world from blood and tears,
The fearless heroes get endless cheers.
